

Efficient Coating Machine ATC Pro

For pharmaceutical manufacturers needing ultimate performance, the ATC Pro is your answer. This advanced coating machine offers uniform coatings at remarkable speed. It handles even complex formulas and large batches with ease. Thanks to its smart controls and optimized drying, the ATC Pro delivers flawless coatings, enhanced tablet function, and a perfect finish. It boosts your efficiency and ensures you meet the strictest quality and compliance standards.

Features

- ✓ **Smart & User-Friendly Control:** Offers precise control over the coating process with a PLC system, including both manual and automatic options. The touchscreen interface makes monitoring and adjustments easy.
- ✓ **Energy-Efficient Design:** Optimizes energy use, ensuring high-quality coatings without excessive power consumption.
- ✓ **Compact & Integrable:** Its minimal footprint simplifies integration into existing production lines, saving valuable floor space.
- ✓ **GMP Compliant & Hygienic Build:** Fully meets pharmaceutical industry standards for hygiene, safety, and quality. All contact parts are made from durable stainless steel.

Specifications

Model	ATC Pro-5
Coating Roller Capacity	Φ300/1L, Φ380/3L, Φ480/5L
Rotate Speed	0-30 r/min
Exhaust Fan Flow	2500 m ³ /h
Air Heater Flow	504 m ³ /h
Temperature Range	Max. 80°C
Main Motor	0.37 kW
Dimensions	1250x900x1700 mm
Weight	750 kg
