

# Automatic Bottle Unscrambler CED-160

The CED-160 automatic bottle unscrambler can handle many kinds and sizes of bottles, from small medicine bottles to bigger ones. It quickly takes bottles from a pile, turns them the right way up, and sends them out one by one at a steady pace. The CED-160 is known for being strong and working without problems. This helps bottles move smoothly to your filling and capping machines. It's a great pick for companies that need to pack bottles faster and work better, thanks to its reliable and easy-to-use design.

## Features

- ✓ **Easy to Use & Reliable:** Simple controls mean easy use. Strong parts and smart electronics ensure long-term, stable work.
- ✓ **Accurate & Safe:** It checks each bottle for correct lineup.

Safety signs and guards protect workers.

- ✓ **Handles Many Bottle Sizes:** Sorts plastic bottles from 50 mL to 300 mL. Good for various production lines.
- ✓ **Meets GMP Rules:** All product-touching parts are stainless steel. This meets strict GMP quality rules.
- ✓ **Saves Energy:** Low-power design uses less electricity. This cuts running costs and is good for the environment.

## Technical Parameters

Model	CED-160
Bottle size	50-300 mL
Maximum production capacity	60-100 bottles/min
Power	0.5 kW
Power supply	220 V
Dimensions	2,200 x 1,050 x 1,900 mm
Weight	250 kg
